

WAKE UP VALHALLA!

**It is time to end the apathy that has
infected our community.**

It is time to send a message...

- A message to our **teachers and administration** that we will give them the tools to teach our children to be productive adults and citizens.
- A message to our **senior citizens** that we understand the burden of higher taxes and therefore will only ask of them what our children desperately need.
- A message to the **School Board** that we support their efforts to turn our good schools into great schools.
- A message to our **entire community** that we are **together** in our desire to have a healthy, whole school district.

A message to our children that we care enough about
THEM to take the time to Vote!

Let's end the apathy -

On Tuesday, May 17th,

Vote YES on the School Budget!
